## ADVOCACY DAY INFORMATION

MMEA & MSVMA are united in their support for quality music education in Michigan. We are encouraging lawmakers to support two K-5 music education bills, SB 0198 and HB 4349. If enacted, this ESSA-aligned legislation would authorize best practice guidelines for K-5 general music contact time and teaching environment, and would ensure the preservation and continuous development of high quality music education experiences for *all* Michigan students.
